

# Chunky Bead Necklace

Level: Easy

**You will need:**  
1 meter 2mm Leather Thong  
7 Large Hole Glass Beads  
2 Coil Crimps  
1 Sprung Hook

1. Tie a knot approx 2cm off the middle of the leather. Pull quite tightly, but do not over stretch the leather.

2. Add a bead to the longer length of the leather and tie a second knot close to the bead to hold it in place.

3. Leave approx 6cm of leather and then tie another knot. This will be the place where your next bead will be.

4. Add your beads as in step 2, spacing them approx 6cm apart and knotting before and after each ones. Leave approx 3-4cm at each end.

5. Add a coil crimp to both ends of the leather. To do this you simply squeeze the very last coil of the crimp hard down onto the leather.

6. Join the two coil crimps together with the sprung hook to form the clasp.

7. Show off with pride !
