

Flower Watch

You will need:

1 x Watch Face
16 cm Wide Link Chain
60 Acrylic Flower Caps
60 x 6mm Glass Beads
60 Head Pins
1 Toggle Clasp
Few seed beads

1. Measure your watch face and cut your chain to make your bracelet up to a total length of 8" (larger or smaller if required)

2. Cut your chain in half and add a clasp part to each piece.

3. Onto a headpin thread a small seed bead followed by a 6mm bead and a flower cap to sit on top of the bead.

4. Bend the pin (do not cut any wire off at this stage) and loop onto one of the links on your chain.

5. Form the wire around into a loop enclosing the link, and wrap the wire round the head of the flower cup twice.
6. Nip off the wire close to the cup and make sure it is tucked in neat so no sharp bits protrude.

7. Add TWO flower pins to EACH link, fill up both lengths of chain as shown in the pic.

8. Open the link on the watch face and add the flower chain.

9. Repeat for the other side.

10. You may like to add a couple of flower pins to the actual watch link too to add more fullness.

11. Wear with pride !
