

Summer Cluster Set

You will need:

- 1 x Ready Made Chain
- 2 Earring Wires
- 36 Head Pins
- 3 x 8mm Beads / 15 x 6mm Beads / 18 x 4mm beads (3 Sets)
- Seed Beads
- 18 large links of chain

1. Onto one Headpin thread one seed bead, one x 8mm bead and another seed bead.
2. Turn the top of the wire over to form a loop and cut off the excess with wire cutters.

3. Open the links in the chain to separate into three lengths of 6 links.
4. Attach the beaded loop you just made to the bottom link of one length of 6.

5. Make another pin in the same way as steps 1 & 2 but using a 6mm bead, and attach to the second link, as show in the photo.

6. Repeat with the remaining four 6mm beads, attaching each one to the next link in the chain.
7. Now thread up the six x 4mm beads in the same manner and attach each one to each link (you will now have two beads on each link)

8. Repeat this to make three clusters, taking care to colour match your design as you go along.
9. Thread the chain through one cluster to make the pendant, and attach the other two clusters to the earring wires.
10. Wear with pride !
